Evaluate Technology's Ability to Implement Supportability Objectives & Sustainment Strategy
Refine Sustainment Objectives and Requirements
Set Sustainment Metrics & Requirements
Design-in Sustainment Features & Establish Product Support Package Requirements
Implement Product Support Strategy and Package
Logistics And Sustainment Thread
Define Initial Supportability Objectives & Sustainment Strategy
Demonstrate Feasibility & Mature Technology
Design Product Support Package
Develop Product Support Package & Demonstrate Critical Capabilities
Monitor Performance and Adjust Product Support

Systems Engineering Technical Review Timing
